

MANAGEMENT CONSULTING, INC.

Faster Payments Survey Results...Highlights!

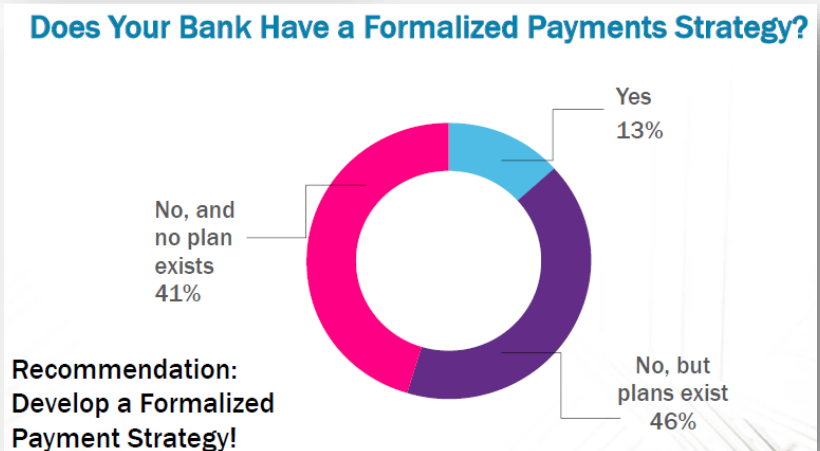

By Tom Frale

This summer, RLR Management Consulting conducted a survey involving over fifty financial institutions across the United States regarding faster payments and readiness for same day ACH capabilities. We are excited to be presenting the results through a number of webinars and speaking engagements including our November 15th workshop in Los Angeles, CA. Here is a sneak peak of some of our findings:

Part of our survey focus was regarding the perceived threat of third party and fintech providers to financial institutions. 60% of the respondents indicated they were somewhat worried about the fintech threat and not a single respondent said they were no threat at all.

In addition, we determined that less than 15% of the financial institutions had a structured payment strategy, with the majority split between having a plan that exists but has not been implemented and others that have no plan at all.

If you are interested in participating in our survey (which takes less than five minutes to complete), please contact Tom Frale at tom.frale@rlrmgmt.com. We will be providing all participants with a summary of findings report later this Fall.
